

IDP AND BUDGET PUBLIC PARTICIPATION REPORT

1. BACKGROUND

The IDP Strategy aims to ensure that the people of Nelson Mandela Bay are at the centre of planning and development in the City. The IDP and Budget review processes with stakeholders were conducted during 12 – 21 October 2020 and 12 – 20 April 2021. In these sessions, residents were able to participate and raise the issues and priorities that they consider need to be included in the Cities plans for the 2021/2022 financial year. A consolidated list of the top 10 most frequently raised issues from the two public meetings has been prepared.

Chapter 7 of the Constitution of the Republic of South Africa, Chapters 4 and 5 of Local Government Municipal Systems Act, (32 of 2000) and Chapter 4 of the Municipal Finance Management Act, (56 of 2003) compel municipalities to engage communities through public participation programmes.

The current IDP review is the fifth and final review of the 2017/18 to 2021/22 IDP. Every 5 years a municipality must prepare a new IDP and review it annually. The reason for a 5-year IDP is that it coincides with the term of office of Council's elected office bearers after a local government election.

The IDP reviews conducted in this and the last financial years did not follow the "normal" processes, due to the COVID-19 context. This necessarily had to shift the Municipality's priorities to cope with the pandemic. The shifts affected the process of preparing the IDP, public participation, priorities and the budget.

Nelson Mandela Bay has also been affected by the drought. The dual impacts of COVID-19 and the drought have greatly impacted the priorities and the Budget.

2. PUBLIC PARTICIPATION

A cornerstone of the IDP is public participation. The public participation processes reveal the priorities of communities and the important aspects that the Municipality needs to address in planning and development. It is public participation that guides the politicians regarding priorities and choices for the IDP and Budget.

Prior to the 2019/20 financial year, the Municipality held face to face meetings with communities as well as other engagements that informed the Council about the priorities and concerns. Since the outbreak of the pandemic, the Municipality has had to conduct public participation differently. During this review period public participation meetings were held in venues with decreased capacity.

Furthermore, the Municipality has had to rely on digital mechanisms and reaching communities in alternative ways such as radio shows, posters, municipal website and social media platforms.

TUNE IN TO KQ FM 97.0 TONIGHT AT 18:00

The Municipality will be broadcasting its IDP Public Participation meeting for 2021/22 at the **Govan Mbeki Multi-purpose Centre, in Govan Mbeki at 18:00.**

Champion Galela Cluster serving Wards 25, 26, 27, 28, 30, 33 & 36.

INTEGRATED DEVELOPMENT PLAN
2021/22
REVIEW

WHEN IS THE REVIEW?

The 2021/22 IDP Review is scheduled to take place during **12 to 20 April 2021.**

WHAT IS THE IDP?

An Integrated Development Plan (IDP) is a 5-year plan which is reviewed annually and determines the development needs of the Municipality and plans for future development.

Integrated Development Planning is an approach to planning that involves the entire Municipality and its residents in finding the best solutions to ensure good long-term planning and efficient allocation of scarce resources for service delivery.

WHY SHOULD I PARTICIPATE?

PARTICIPATION is one of the cornerstones of democracy. CONSULTATION helps the Municipality to make decisions based on the needs of its residents.

INFORMED residents understand the objectives of the IDP and what the Budget and resource allocations are.

HOW DO I PARTICIPATE?

- Access the Draft 2021/22 IDP from the municipal website: nelsonmandelabay.gov.za
- Listen to the radio broadcasts of the Municipality presenting the IDP Review.
- Submit your comments by downloading the NMBM App or complete the form and send 'IDP Input' and 'IDP Input Form' from the municipal website and email to idpoffice@mandelametro.gov.za
- Due date for comments/forms: 24 April 2021.

TELL US

Please tell us what is important to you in your community for the next IDP period spanning July 2022 to 30 June 2023 (What are your priorities and what do you want the Municipality to pay attention to?)

Be part of planning a better tomorrow today!

PARTICIPATING STAKEHOLDERS

The following stakeholders participated in the Public Participation processes conducted by the Municipality.

- a) Councillors
- b) Ward Committees and Community Development Workers
- c) Special Sectors – with use of Sign Language Interpreters
- d) Broader community members
- e) Sector Departments (Provincial and National) – IDP Representative Forum
- f) Cultural and Creative Arts industries
- g) Sports Sector
- h) State Owned Entities
- i) SAPOA - South African Municipal Property Owners Association – Gqeberha Region
- j) Business Chamber and NAFCOOC
- k) Municipal Unions and
- l) NPO's.

The 10 Top frequently raised priorities arising from the public participation processes are:

- 1. Rectification of Pre – 1994 houses
- 2. Provision of Streetlights and high mast lights
- 3. Tarring of roads and construction of speed humps
- 4. Water leaks
- 5. Illegal dumping and Bush clearing
- 6. Construction and upgrade of Sport fields, Parks and Playgrounds
- 7. Upgrade and maintenance of sewerage system
- 8. Visibility of Metro Police and SAPS due to high crime rate
- 9. Electrification of informal settlements and
- 10. Provision of Schools and Clinics

The complete list of Priorities per Ward is attached as an annexure.

3. CONCLUSION

In conclusion, there are a number of pressures that the municipality confronts in respect of its planning and budgeting for a sustainable city whilst at the same time accommodating immediate community priorities. These are captured below:

- a) The decreased collection rate, the reduction in grants from National Treasury, the additional burden of increased Assistance to The Poor (ATTP) and the realignment of resources for COVID-19 have impacted all municipal programmes and made resources scarcer.
- b) The municipality needs to address the severe water crisis situation in the short, medium and longer term. This means allocation of resources towards the drought mitigation effort.
- c) COVID-19 has highlighted the importance of Disaster Management for which the City was unprepared.
- d) Investment needs to be made to ensuring the City is able to be more virtually and technologically responsive.
- e) An emphasis needs to be placed on strategic planning and budgeting for the MTEF period going forward in order to ensure economic recovery and the best possible outcome for citizens.

PRIORITIES FROM IDP AND BUDGET PUBLIC PARTICIPATION PROGRAMME:

12-20 APRIL 2021

WARD	ISSUES RAISED	RESPONSIBLE DIRECTORATE
1	Resurfacing of Jenvey and Brewer Streets in Summerstrand	Roads and Stormwater
